

Curbside garbage, yard waste and bulk collection will change on Oct. 1, 2019

Garbage

Automated service means that every residential curbside customer will receive a new garbage cart that will be delivered to your home prior to the new service start date, most likely in the months of August and September. Please DO NOT use the cart until Oct. 1.

Starting Oct. 1, all garbage must be placed inside the cart. You will be able to purchase a second cart, if needed, for a one-time cost of \$65 and no additional collection or disposal charges. The waste hauler will be fully responsible for the repair/replacement of the cart.

We encourage residents to use their current garbage cans for containerizing yard waste.

Garbage will still be collected twice a week.

Bulk Service

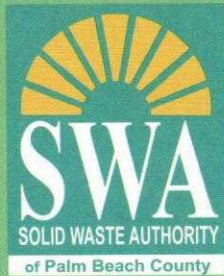

The collection of bulk items like appliances, furniture and large household items that do not fit in your cart will be provided one day per week and limited to no more than three items.

If you have more than three bulk items, contact SWA Customer Service at 561-697-2700 for an estimate to have the additional items removed.

For additional information, visit SWA.org or call SWA Customer Service at 561-697-2700.

For additional information, visit SWA.org or call SWA Customer Service at 561-697-2700.

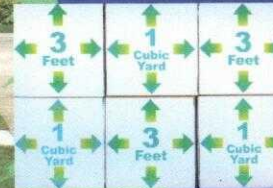

6 Cubic Yards

18' Long

X 3' Wide

X 3' High

Yard Waste

Piles that exceed 6 cubic yards will not be serviced. They will be tagged and it will be the resident's responsibility to arrange for removal, either by hauling it to a permitted disposal facility, making arrangements with a private hauler, or contacting the SWA for an estimate at \$8 per cubic yard. Any pre-existing piles exceeding the 6 cubic yard limit will not be eligible for collection as of October 1st.

Debris other than palm fronds and tree branches, such as leaves, tree and hedge trimmings, pine needles, etc. must be containerized, and tree branches and palm fronds should be neatly stacked in a pile that does not exceed 6 cubic yards. Branches should be cut into pieces that are no more than 6 feet long, 6 inches in diameter, and weigh no more than 50 pounds each. Palm fronds can be any length.
